

Senior Project Manager

About Development Initiatives

Development Initiatives (DI) is an independent international development organisation working on the use of data to drive poverty eradication and sustainable development.

Since DI was established in 1993 our expertise and passion has been rooted in the role data can play. We are focused on getting better data on poverty and vulnerability, so we know where need is greatest and whether efforts are working. We are dedicated to improving information about resources so that they can be targeted effectively – and we want to help others use data to improve decision-making and drive better results.

We work to ensure that decisions about the allocation of finance and resources result in an end to poverty, increase the resilience of the world's most vulnerable people, and ensure no one is left behind. We want these decisions to be underpinned by good-quality, transparent data and evidence on poverty and resources, and lead to increased accountability and sustainable long-term outcomes.

We believe there are enough resources in the world to consign extreme poverty to history, but poor or inaccurate information means these resources are not reaching those who most need them. While data alone will not end poverty, it is a vital catalyst for increasing knowledge, providing clarity and improving decision-making at local, national, regional and global levels.

Our work focuses on three key areas:

1. Measuring the progress of people out of poverty

Our work on poverty is about driving commitments and investment towards improving poverty data, and drawing on existing data to start building a clearer and more accurate picture of poverty

2. Investments to end poverty and build resilience

Our work on resources is about informing national, regional and international actors on how to mobilise, track and improve the targeting and effectiveness of the many different resources that can address poverty, vulnerability and crisis

3. Data use of sustainable development

Our work on data use is about breaking down barriers to data use, improving data availability and usability, and helping people use data effectively in order to drive efforts to end poverty and build resilience

Senior Project Manager, Bristol, UK

Role profile and purpose

The Project Management team is responsible for ensuring that selected projects are delivered on time, to budget and meet quality requirements. The postholder will work on the Global Nutrition Report (GNR) project and will be part of DI's Project Management team reporting to the Head of Project Management.

Duties and responsibilities

Technical duties

- Facilitate input and gain agreement from key GNR project stakeholders on scope, schedule, budget, risk and quality for the project
- Establish and monitor controls to ensure the project is delivered on time, to scope, on budget and is of a high quality
- Manage the GNR project with complete oversight of all the different strands of the project including the publication of the report, outreach and communications, digital development, stakeholder relationships and donor communications
- Manage contractor/consultant relationships (e.g. setting terms of reference, selecting vendors, managing performance) relevant to the projects
- Create and manage the budget for the GNR project, and others as required
- Manage donor liaison for fundraising including identifying areas requiring support, drafting funding proposals, and preparing project and budget content for individual donor templates
- Identify and manage project risk with DI project sponsor and the GNR Independent Expert Group (IEG) co-Chairs
- Coordinate the development and production process for outputs to ensure effective delivery within agreed timelines and involving all necessary stakeholders (including the GNR IEG, Stakeholder Group, commissioned study authors, researchers and reviewers)
- Coordinate the review and revision process
- Work with the Communications team to ensure that the communications plan is in place and delivered
- Develop an annual project report, incorporating agreed cross-donor reporting metrics; work with individual donors on internal reporting if necessary
- Develop and maintain a governance framework for GNR, including drafting terms of reference and other background documents as required
- Facilitate IEG meetings

- Organise and provide support to the Co-Chairs and the DI team to plan the GNR and ensure all strands of the project are fully developed into concept notes. Ensure these are reviewed, updated, shared and maintained throughout the year
- Work to ensure DI builds learning into the project planning cycle and can demonstrate how a project contributes to organisational goals
- Ensure all team members (internal and external) are fully aware of their tasks and timelines for delivery and are supported to ensure they deliver
- Identify issues that need to be resolved during projects and facilitate resolutions; escalate more complex issues to the Head of Project Management for resolution as needed
- Provide internal project status reports and updates to the Head of Project Management
- Liaise with finance team to ensure sales invoices are raised for projects
- Raise purchase orders for project expenditure
- Mentor project managers in aspects of the profession such as leadership, methodology, tools, people skills and navigating politics
- Conduct training to other project managers or wider staff

Organisational responsibilities

- Implement and manage strategic projects and activities in line with DI's vision, mission, values and goals
- Assist in the development of new projects and identification of new and emerging opportunities
- Develop and maintain effective systems ensuring they are consistent with DI's operational requirements and policies
- Support the development and implementation of the organisational strategy
- Support the day-to-day management of the Project Management team
- Demonstrate creativity in applying solutions

Management duties

- Directly line manage a Project Manager(s) and provide leadership and motivation to the wider Project Management team
- Contribute to team meetings and provide updates for Director group meetings as required
- Take responsibility for health, safety and security obligations for team members

General responsibilities

- Be aware of and take personal responsibility for any health and safety issues and obligations
- Uphold all aspects of company policies and procedures and legal requirements in relation to personal conduct

- Support an ambitious organisation, actively taking part in helping to meet its goals and positively supporting innovation and development
- Maintain professional development and personal development plans
- Be willing and committed to take on new work as required and be proactive

No job description or role profile can encompass all tasks and duties that may be required, and we will expect the postholder to carry out other duties and tasks from time to time that are broadly consistent with those in this document.
